1. Mostly music!
2. Chat to be minimal, effected by maintaining long frequency of air checks - multiple-play of records, in other words.

STATION STRUCTURE

RADIO GLADICE (RG)

Aims.

1. To provide, in the first instance, a music service to Glasgow and beyond, its style (both re. presentation and music content) to be alternative to existing stations.
2. To draw together the lesbian & gay community with other "diverse" groups, (eg. human rights, anti-apartheid etc.) and to provide a voice for them on the radio - in other words, giving coverage to groups who receive little or none in mainstream media - fascists excepted, obviously.
3. To actively support a campaign for the above groups, and to promote an anti-bigotry policy.
4. To provide an alternative to but to complement the existing commercial scenes.
5. To broadcast to Glasgow, Strathclyde, Central Scotland (and in the long term, to Europe via short-wave).
